In some cases the EAC license is not obligatory; such cases belong to exceptions of the general order. [List of exemption here](#)

Types of a product which may fall into Minpromtorg license or Radio frequency center Russia:

- transit of radio electronic equipment & high frequency devices without the right of use on the territory of the Customs Union;
- temporary import of radio electronic equipment & high frequency devices installed on vehicles;
- re-importation of radio electronic equipment & high frequency devices, previously temporarily exported from the territory of the Customs Union;
- import of radio electronic equipment & high frequency devices in the avionics, sea or river vessels;
- import of radio electronic equipment & high frequency devices for repair or installation in air, sea or river vessels and other technical equipment, manufactured in the territory of the Customs Union, without the right of use on the territory of the Customs Union and subject to the reverse export from the territory of the Customs Union of goods received as a result of manufacturing or after repair of electronic equipment and high frequency devices.

Second, these exceptions refer to products whose technical characteristics are normalized, in that radio-frequency legislation is harmonized globally.

Permit for importing RFC /[Radio Frequency Center approval Russia](#)

For import into the territory of Russia of high-frequency devices, radio electronic equipment and components it is necessary to obtain the conclusion on the compliance with the requirements of the specifications and conditions of operation approved by the State Commission for Radio Frequencies (SCRF).

The authorization document for import is the **conclusion of the Radio frequency center (RFC)**. It confirms that the devices meet the requirements established by SCRF, are included in the established list or do not require entering it.

Russia - Prohibited & Restricted Imports

Includes a list of goods that are prohibited from being exported to the country or are otherwise restricted.

The import and export of goods in Russia is carried out in accordance with the unified list of the commodities that are prohibited or restricted for imports into the EAEU ([Eurasian Economic Union](#)). The list was approved by the EEC (Eurasian Economic Commission) Collegium Resolution No.134 dated August 16, 2012 (According to the annex № 1 to the decision №30 ECE College of 21.4.2015. ([full list of a licensed or non-tariff regulation products](#)))

Additional documents regulating the import and export of goods include the Customs Union Agreement on Licensing Regulations of International Trade dated June 9, 2009, and the RF decree No.1567-p of 23.09.2010.

A current list of these items, and the applicable regulations, can be found at the following [link >>](#) On August 7, 2014, in response to Ukraine-related sanctions, Russia imposed a one-year ban on imports of certain agricultural and food products (covering about 52 specified HS classifications) originating from the United States, European Union, Canada, Australia, and Norway. On June 24, 2015, Russia extended the agricultural food ban by one year, to August 2016 and carried out until December 31, 2017.
